

**IMPACT: Integrated Mechanics of Processing  
and Composite Technologies Laboratory**  
The University of Texas at Austin

**Numerous applications of the technology :**

- Military...**      *deep sea submersibles, submarines, ...*
- Oil Industry...**      *deep sea pipelines & risers, ...*
- Construction...**      *pipelines, structural member reinforcement, ...*
- Recreation...**      *golf shafts, tennis rackets, bicycle frames, masts, ...*
