Lisa B. Waters

Distinguished Mechanical Engineer, 2018

BSME, The University of Texas at Austin, 1981

Vice President, Americas

ExxonMobil Development Company

Lisa Waters has more than 35 years of ExxonMobil experience with a wide range of leadership roles in the United States, Canada, Europe, Africa and South America. She became Vice President, for ExxonMobil Development Company in February 2014. In her current role, she is responsible for Major Upstream Capital Project Development in North and South America.

Ms. Waters has worked on some of the megaprojects within ExxonMobil Development Company, including the Sakhalin-1 project in Russia, the Kizomba deepwater projects in Angola, the Adriatic LNG Terminal project in Italy and the Kearl oil Sands project in Canada. Her current portfolio

includes deepwater projects in the Gulf of Mexico and South America, including Guyana and Brazil.

Her primary areas of expertise are in capital project management, production facilities, marine engineering, and hazard & risk assessment.

Ms. Waters graduated with Highest Honors from the University of Texas at Austin in 1981 and holds a Bachelor of Science Degree in Mechanical Engineering. She has been married to her husband, Michael, for 34 years and has three grown children, a daughter-in-law, son-in-law, and two grandchildren. She and her family enjoy golf, hiking, fishing, and skiing.
